

## *Free wristband for all walkers!*

The new “Life is Precious” bracelet takes a stand for Life using the popular rubber-band format (Similar to Lance Armstrong's 'Live Strong' bracelets).

Colored white to both be a symbol of the purity of the unborn child and to stand out from others campaigns, these bands are perfect for starting a conversation about the sanctity of human life.

They include the debossed shape and size of unborn baby's feet at 10-weeks old and the words “Life is Precious”. Made of durable rubber they will last for years and fit any teen or adult. (Heritage House '76)
